

GASOLINE STABILIZER

- *Stabilizes gas for up to 2 years*
- *Prevents corrosion of the fuel system*
- *Compatible with all gasoline engines*

Gasoline Stabilizer

Woolsey® Gasoline Stabilizer is formulated with advanced antioxidants and corrosion inhibiting additives to prevent stale gasoline and fuel system corrosion during long term storage.

Woolsey Gasoline Stabilizer is safe to use in all gasoline engine types, as well as, with ethanol and ethanol free grades of gas. The advanced antioxidants keep the gasoline fresh and assure worry-free starts after long periods of storage. Special corrosion inhibiting additives protect against corrosion and other ethanol related damage by providing a protective coating on ALL the metal parts of the entire fuel system and combustion chamber, even when the engine is not running.

Applications

This gasoline additive is a very effective antioxidant/stabilizer and corrosion inhibitor used to improve the shelf life of gasoline. It can be easily blended into all types of gasoline and is formulated for use in all types of 2 & 4 cycle gasoline engines. Applications include passenger, heavy-duty, high performance, marine, agriculture, motorcycle, lawn equipment, stand-by generators & other gasoline engines where corrosion protection and longer shelf life of gasoline is desired.

NOTE: This product does not replace the need for 2-cycle oil. This product should be added to the fuel storage tank prior to adding fuel. Storage tank should have a 20% heel of gasoline & be free of excess water and/or sludge.

Blending Recommendations

Treat Rate: 1oz : 5 gallons; 8oz : 40 gallons
